

# Master NLP Practitioner Training

*A practical guide*

# NLP MASTER PRACTITIONER TRAINING

A Neuro Linguistic Programming (NLP) Master Practitioner Course over eight days in Cambridgeshire designed to give you the best experience of learning advanced NLP techniques and methodologies and the most amazing personal development experience!

## What is a NLP Master Practitioner Course?

NLP techniques have been developed over many years. The NLP Master Practitioner Course is designed to enhance your understanding and application of NLP techniques in a structured and user-friendly format that allows you to spot problems and seamlessly weave in solutions into your coaching and your every day language. A NLP Master Practitioner course is a personal development programme like no other. You will learn and grow throughout the course gaining confidence as a coach as you do whilst learning to excel in the techniques you have already learnt and those that you are yet to learn.

You will also achieve certification approved by the American Board of Neuro Linguistic Programming (ABNLP) and be a qualified NLP Master Practitioner. Prior to the course, delegates will receive a pre-study information manual. This allows delegates to prepare for the course and to make sure they have the best experience possible. Before, during and after the course you will have access to Trainer(s) who will be able to answer any questions.

## Who should attend?

This course is for anyone in...

- Sales and customer service
- Human Resources and recruitment
- Training and coaching
- Therapy
- Students and teachers
- Managers and business owners

*"Thank you for this week. It has been stretching and challenging but fun! The journey continues..."*

**Sam Anthony**

## Why would you want to come on the course?

- To be able to join together the techniques that you have learnt in a seamless way to be able
- To choose the right process at the right time for the right person
- Understand how to really communicate effectively
- Become more effective in developing your coaching career
- To apply all of the techniques of NLP singly and in combination to help people develop
- To learn how to use values to better make changes with people through an unconscious switch in focus
- To learn how to use meta programs to better understand the way in which people and your clients filter information
- To learn how to complete a detailed personal history that delivers results for the client and gives you the information you need to design the right intervention
- To learn to design individualised interventions specific to the person both generative and remedial
- To learn how to use utilization effectively
- To deepen your mastery of language to both create change with people and deepen rapport
- To further understand the use of strategies their elicitation and their use in change work
- To become masterful of all NLP techniques to include the fast phobia model and swish patterns
- Replace old habits, which are not useful, with new positive strategies
- Turn dreams and ambitions into goals to achieve
- Know how to respond positively to setbacks and clients who don't fit the model!

## What is NLP and how can it help you?

NLP is the science of human excellence and is designed to help you understand the communication styles of yourself and others. Have you ever been frustrated when you can't get your point across? Of course, we all have, but understanding a mis-match in communication styles and employing the techniques learned in NLP can help you become more flexible and deliver amazing results.

This course can benefit anyone who wants to be motivated, to develop, have total belief in themselves and push their results forward. Whatever result you set out to achieve will be what you get!
